ABSTRACT

An extensive list of publications concerned with programmed instruction. Listing is alphabetical by author or, in case of corporate author, by title.

INTRODUCTION

This bibliography is a supplement to the references listed in "Teaching Machines: A Review," by Charles S. Morrill, Psychological Bulletin, vol. 58, no. 5, pp. 363-375, 1961. It is intended to provide the reader with an extensive list of publications concerned with programed instruction.

Available programs for instruction are not listed here. However, the April 1962 issue of Programed Instruction, the bimonthly bulletin of The Center for Programed Instruction, states that the Center has prepared a pamphlet entitled Programs '62: A Guide to Programed Instructional Material Available to Educators by September, 1962.
